

Aron Panicker

QA Engineer

Breaking things politely so users never have to.

Linz, Austria

About

QA Engineer with experience across IoT products, web apps, mobile apps, and APIs. I care about stable releases, readable bug reports, and practical automation.

Core skills

Test planning, test cases, regression, integration, performance, UI testing, BVT, UAT, end-to-end, Salesforce testing, Agile/Scrum, Selenium, Postman, JMeter, Jira, Zephyr, TestLink, SQL, Java, C++, Git.

Experience

QBURST Technologies – QA Engineer (Aug 2021 – Present)

- Testing web/mobile applications and APIs for IoT home security solutions.
 - Executing regression and build verification testing for release quality.
 - Writing test plans/cases from PRD and FRD requirements.
 - Running API and performance testing to identify bottlenecks.
 - Collaborating with product/development for faster issue resolution.
-

Projects

Sample API test collection (Postman + Newman): github.com/panickeraron
